

## Cheyenne Masters Men September - December 2007 News

**This photo was taken following a severe thunder storm that hit on the first night of our Vacation Bible School**

It is the holidays already, wow how time has flown by this year! The year 2007 was a real challenge for some of our people, but through it all God has been good and provided.

During this past year the Masters Men took part in the *Get A Grip* and the *Ready To Serve* studies which was very beneficial for our group. In August the Masters Men worked with the Cheyenne WNAC Chapter to conduct our first Vacation Bible School in several years.

In the fall we loaded up and headed to the Denver Rescue Missions Corn Maze in Wellington, Colorado. We have made this trip for several years in a row, but this year just as we had our "Tailgate Pot Luck" the winds came up and the temperature dropped. Even with cold strong winds we still had a great time in fellowship, walking the maze and sitting around the large campfire in fellowship drinking hot chocolate and sharing kettle corn.

This past week the Master Men participated with the Youth in our Christmas Program "Gifts of God."
